# CASS COUNTY

# CASS SOIL AND WATER CONSERVATION DISTRICT

## LOCAL WATER RESOURCES

## **PROTECTION AND MANAGEMENT PROGRAM**

## 2017 WORK PLAN AND BUDGET

**IN COOPERATION WITH:** 

NATURAL RESOURCES CONSERVATION SERVICE MINNESOTA BOARD OF WATER AND SOIL RESOURCES MINNESOTA DEPARTMENT OF NATURAL RESOURCES LEECH LAKE BAND OF OJIBWE

### CASS SWCD MISSION STATEMENT

It is the mission of the Cass Soil and Water Conservation District to provide leadership and technical assistance to landowners and cooperating agencies in the wise use, conservation, and management of Cass County's natural resources.

### DISTRICT SUPERVISORS AND STAFF

**District Board:** 

Thomas Kuschel, Chairperson Ken LaPorte, Vice Chairperson Jim Ballenthin, Secretary Jane Ekholm, Treasurer David Peterson, Member District Staff \*:

John Ringle, District Manager Brenda Davis, District Clerk Kelly Condiff, Natural Resource Professional and Shoreline Specialist Robert Wright, Environmental Resource Specialist Scott Navratil, Environmental Resource Specialist Rima Smith-Keprios, AIS Program Manger

\*--Cass SWCD has a Shared Service Agreement with the Cass County Environmental Services Department for employee services, and administrative and logistical support.

## SUMMARY

Cass County's Comprehensive Local Water Plan serves as the workplan for the Cass SWCD. That plan lists education & information, monitoring & data collection, inventory & mapping, land & water treatment, and regulation & ordinance activities to be undertaken in 2017 and/or carried over from 2016. Currently the County Local Water Plan is undergoing a revision process A copy of the draft Cass County Comprehensive Local Water Plan is available on our website at: http://www.co.cass.mn.us/esd/pdfs/comprehensive\_plan.pdf

This plan is currently being revised by Cass County ESD and Cass SWCD staff, with a goal of formally approved by BWSR and the Cass County Board in June of 2017. A copy of the Draft Plan is available at:

http://www.co.cass.mn.us/government/county\_directory/environmental\_services/index.php

## **COST-SHARE FUNDS ALLOCATED**

#### HIGH PRIORITY EROSION AND STORMWATER PROBLEMS

Shoreline Erosion	33,347
Residential Development Stormwater Control	15,000

#### COST SHARE PROJECTS IN TULLIBEE LAKES WATERSHEDS

Stormwater Mgmt., Riparian Buffer and Erosion	20,000
SMALL WOODLOT MANAGEMENT FOR WILDLIFE	20,000
TOTAL	\$88.347

\$88,347

## **HIGH PRIORITY AREA DESIGNATIONS**

### HIGH PRIORITY EROSION

Primarily in areas as identified in the Cass County Water Plan where erosion from wind or water is occurring on soils equal to or in excessive amounts as determined by using BWSR or NRCS pollution reduction calculators. Any area near a water basin or wetland eroding by water in excess of normal amounts as determined by a pollution reduction calculator would be a priority. Highest priority will be given to lakes, wetlands, or water courses classified by the Department of Natural Resources as impaired waters and secondarily, protected waters of the State. Currently, we are working with Cass County ESD to implement a \$20,000 Tullibee Lakes grant from MNDNR. These funds will be used to provide up to 75% cost share to groups and landowners that are willing to work with us to install stormwater control, erosion control, and Private Forestry practices. We are working to implement the 2015 Buffer Law.

#### **HIGH PRIORITY SEDIMENTATION and STORMWATER MANAGEMENT**

Areas as identified in the Cass County Water Plan where the district can show that sediment delivery occurs from the watershed, or direct conveyance such as a storm sewer or impervious surface discharging to county waters. Highest priority will be given to lakes, wetlands, or water courses classified by the Department of Natural Resources as protected waters of the State. Stormwater Management including buffers, impervious surface reduction and rerouting of overland flows is an area of specific concern.

### SMALL WOODLOT MANAGEMENT FOR WILDLIFE (Private Forest Management)

Cost-share funding is available to assist small woodlot owners of non-industrial private forests, to develop a forest management plan to increase habitat value for wildlife and water quality protection. We anticipate continued funding for Forest Management Plans for property owners in selected tullibee lake watersheds. Upon completion of a Forest Management Plan, the Cass SWCD has additional cost-share funding available to implement small woodlot timber stand improvement practices such as selective harvest, thinning, brush shearing, management of terrestrially invasive plant species, and selective planting to benefit wildlife and reduce erosion and sedimentation. Forest Plans will also be reviewed to suggest further implementation opportunities to benefit wildlife and water quality.

Current policy on Private Forest Management (PFM) Plans cost-shared by the Cass SWCD is that 1) landowner will be responsible for a \$200 fee collected by the SWCD and used to register the plan with the MNDNR, 2) SWCD will pay the plan writer \$6.50 per acre for acreage eligible to be enrolled under 2c or SFIA, not to exceed \$780 or 120 acres, and 3) SWCD retains the right to increase payment and acreage amounts if parcels exceed 120 acres and are located in priority watersheds shown in the Local Water Plan.

#### **TULLIBEE LAKES WATERSHED COST SHARE PROJECTS**

A project in cooperation with the MN DNR provides up 75% cost-share for projects and practices in watersheds of 11 selected tullibee lake watersheds. These projects could be any of the riparian buffer, stormwater management, or erosion control practices commonly implemented by the district. Additionally, any qualified forest management or small woodlot management project in these selected watersheds would be considered for cost-share funding with private or individual landowners.

\*This amount is 2016 Local Capacity Funds carried in to the 2017 program year.

\*\* In 2015, The MN State Legislature approved funding Expanded Local Capacity Grants to all SWCD Districts using Clean Water Funds in the amount of and additional \$100,000. These funds are intended to be utilized to expand local capacity via increased technical assistance to landowners and expanded cost-share for a variety of conservation practices. This grant was amended in September of 2016 to add an additional \$25,337 to the 2016 budget. The approved 2017 Expanded Capacity Grant is for \$118,000.
